APPENDIX –IX

Government of Orissa
Forest and Environment Department
RESOLUTION.
No.5503/F&E

Dated 31st March 2000. Bhubaneswar

1. Non-Timber Forest Produce (NTFP) has traditionally been perceived as an important source of forest revenue. Accordingly, the policies relating to NTFP over the years have generally tended to aim of maximisation of revenue. However, NTFP is an important source of livelihood of tribals and the rural poor. These gatherers of NTFP, majority of whom are women, have limited access to the market, and their primary concern is getting a fair price for the NTFP gathered by them and being able to dispose off the produce gathered. The prevailing system does not adequately provide these facilities to the primary gatherers. At the same time, it is also equally important that collection of NTFP must be on non-destructive basis so that sustainability of forests and long term sustainability of the NTFP based livelihood can be reasonably ensured.
2. The State Government has had under their consideration proposals for formulation of an appropriate policy on Non-Timber Forest Produce, keeping in view the consideration outlined in the preceding paragraph. While formulating the policy the provisions of the Panchayats (Extension to scheduled areas) Act, 1996 have also to be kept in view. The term 'minor forest produce' has not been defined. Under the policy of Joint Forest Management, the local communities are being closely involved as partners of Forest Department in the management of degraded forests; and the members of the Vana Samrakshyana Samiti are entitled to share of the usufructs, including the entire NTFP gathered from such a forest area. Considering all aspects of the matter, Government have been pleased to approve of the following policy guidelines for streamlining the system of collection and disposal of various Non-Timber Forest Produce items:-

Minor Forest Produce.

- 3 (a). The items of Non-Timber Forest Produce listed in Annexure A will be treated as Minor Forest Produce (MFP) and the term MFP will only mean and include items listed in Annexure-'A'. The list of items of NTFP to be treated as MFP may however be modified by Government from time to time, Gram Panchayat/Gram Sabha in the scheduled areas will have the ownership over

MFP produced within its territorial jurisdiction, i.e. in respect of the MFP produced in and collected from the Government lands and forest lands within the limits of the revenue villages comprising the Gram Panchayat. Under law, ownership of MFP in non-scheduled areas is not vested in Gram Panchayats. Gram Panchayats both in the scheduled and non-scheduled areas will however, have the authority to regulate purchase, procurement (as distinct from collection by primary gatherers) and trading in MFP in accordance with the policy outlined in the succeeding paragraphs.

3 (b). No Gram Panchayat, whether situated within or outside the scheduled area will have ownership over MFP produced in Reserve Forests, in forest areas under Wildlife Sanctuaries and National Parks which are outside the limits of revenue villages. The Gram Panchayats will not therefore have the right to grant lease or licence to any individual or agency for collection of Minor Forest Produce from any Reserve Forest or Sanctuary or National Park. However, members of Vana Samrakshyana Samitis, and tribals, artisans, etc. as part of their customary rights will be free to collect Minor Forest Produce from forest areas excluding sanctuaries and National Parks. When any such MFP collected from forest areas is brought to a village, i.e. into the territory within a Gram Panchayat, it will come under the Gram Panchayat's power to regulate procurement and trading. Where Vana Samrakshyana Samiti has been formed, the Samiti and its members will have priority over the Gram Panchayat in the matter of collection and disposal of Minor Forest Produce of the respective forest area.

3(c). Any person desirous of purchasing MFP from primary gatherers or trading in MFP so purchased shall apply for registration to the concerned Gram Panchayats and the Gram Panchayat may register such dealers or traders for a season from the first day of October to the last day of September of the following year. Dealers and Traders will have to seek fresh registration for the next season. Gram Panchayats shall make all efforts to promote free competition in procurement of MFP by engaging as many dealers for each item of Minor Forest Produce as reasonably practicable. The Gram Panchayat shall also levy an annual registration fee from such dealers or traders at such rate as may be determined by the Gram Panchayats will have to furnish a monthly return to the concerned Range Officer indicating the item of MFP procured quantity

procured and the GP from which procurement was made during the month. No person will be allowed to operate as a Dealer/Trader in MFP in any area without being registered as such by the concerned GP.

3 (d). The collection of MFP by the primary gatherers will be subject to reasonable control to be exercised by the DFO in accordance with the provisions of law and sound silvicultural principles laid down in the Forest Working Plan which shall be given publicity in advance in the adjoining GPs.

3 (e). The Government agencies like Orissa Forest Development Corporation; Tribal Development Co-operative Corporations etc. may also register themselves with one or more Gram Panchayats for procurement and trading in one or more items of Minor Forest Produce.

3 (f). A Gram Panchayat may cancel the registration of any dealer/trader or may refuse to grant registration for the subsequent seasons if after summary enquiry in course of which the affected party shall be given an opportunity to show cause it is satisfied that the dealer/trader has procured any MFP from the primary gatherers at a rate lower than the minimum procurement price fixed for that item of MFP under para-5 of this resolution for the relevant year.

3 (g). No lease shall be granted by Government in respect of any Minor Forest Produce nor shall it levy any royalty on these items after commencement of this Resolution. No Forest Department Transit permit will be required thereafter for transport/movement of any Minor Forest Produce within the State).

Other items of NTFP:

4 (a). The Trade in kendu leaf will continue to be directly controlled by the State Government as there are well laid down statutory provisions for control of trade in this item. Sal Seed which is the one NTFP items notified as a specified forest produce under the Orissa Forest Produce (Control of Trade) Act 1981 will also be dealt with in accordance with the provisions of law by Government keeping the overall interest of the trade, the industries and the gatherers in view.

4 (b). Certain items, namely Sal leaves, gums and resins of different trees and climbers and roots of various species which have medicinal or other uses will not be leased out, as the

collection of these items on commercial scale has adverse impact on the sustainability of the particular species and the forest. In particular localities, however, based on sound assessment of silvicultural availability and enforcement of appropriate collection procedure, any of these lease-barred items may be allowed to be collected either directly by field organisation of Forest Department or a Government undertaking.

4 (c). The remaining items of NTFP as per the list of Annexure-B, which may be modified by Government from time to time, will be allowed to be procured and traded by the dealers who have been registered for the purpose under this Resolution by the concerned Divisional Forest Officer. Individuals, societies, Co-operatives, Government Undertakings and Corporations may be registered as a dealer for the above purpose. Such registration shall ordinarily be granted by the Divisional Forest Officers for a season (from the first day of October to the last day of September of the following Calendar year) to applicants seeking such registration, unless there are valid reasons for refusing registration. The DFO will endeavor to promote competition among the traders and dealers by registering as many dealers as reasonably practicable for a specified area. For each items, as many dealers as may come forward can be engaged for each Forest Division/Range. OFDC, TDCC, Co-operative Societies like LAMPS etc. will also be eligible to register themselves with the DFOs and should be encouraged to engage themselves in trading in these items. The Vana Samrakshyana Samiti, Mahila Samiti, recognised groups of primary gatherers may also get themselves registered for this purpose. The fees to be paid for registration shall be prescribed by Government.

4 (d). The registered dealers will be required to furnish the names of their authorised agents/nominees and the names of their collection and storage centres to the concerned Divisional Forest Officers, and will also record the daily transactions in prescribed formats. The dealers will have to enter into an agreement with the concerned DFOs under which the dealers will be responsible for achieving a minimum target of procurement to be fixed by the Divisional Officer, of a particular item during a collection season. If the collection method of any particular item in any particular area is considered to be harmful or injurious to the forest, the DFO may impose temporary ban on such collection.

4 (e). The registered dealers will have to pay royalty to the local forest Range Officer at the rate fixed for the quantity of produce collected. The rate of royalty shall ordinarily not be less

than 10 percent of the minimum procurement price for the particular item, but this rate may be varied by Government from time to time, *suo muto* or on proposals submitted by the Divisional Forest Officers.

4 (f). The registered dealers will be required to take transit permits from competent Forest Officers for movement/transport of the produce out of the collection centres after setting the royalty dues, etc.

4(g) The Divisional Forest Officer may cancel the registration or refuse registration of any dealer/trader if after summary enquiry in course of which the affected party shall be given an opportunity to show cause it is found that the dealer has procured any forest produce from the primary gatherers at a price less than the minimum procurement price fixed for the relevant year under para-5 of this Resolution or has failed to achieve the minimum target of procurement, or has failed to file the prescribed returns or has failed to settle the royalty dues in time.

5. For all NTFP items including MFP, the Committee appointed by Government in SC & ST Development Department will fix the minimum procurement price each collection season or part thereof. These procurement prices shall be announced every year ordinarily during the month of September and will be given wide publicity as decided by Government.

By Order of the Governor

1. The Administrators of all Union Territories
(Except Lakshadweep)

Subject: Implementation of the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 - guidelines regarding.

Sir,

As you are aware, the historic legislation “The Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act ” had been enacted in 2006 with the objective of remedying the historical injustice to the forest dwelling Scheduled Tribes and other traditional forest dwellers of the country. However, even after lapse of more than four years of its implementation, the Ministry has observed that the flow of intended benefits of this welfare legislation to the eligible forest dwellers remains constrained.

- (1) The Ministry has noticed several problems which are impeding the implementation of the Act in its letter and spirit, such as, convening of Gram Sabha meetings at the panchayat level in some cases, resulting in exclusion of smaller habitations not formally part of any village; non-recognition of un-hindered absolute rights over the minor forest produce (MFP) to forest dwellers; imposition of several restrictions, like, transit permit for transportation of MFPs, levy of fees, charges, royalties on sale of MFPs; exclusion of certain types of MFPs, in contravention of the definition of MFP given in the Act; continuance of monopoly in the trade of MFP, especially in the case of high value MFP, such as, *tendu patta* by the Forest Corporations in many States; non-recognition of other community rights, such as, nistar rights, conversion of all forest villages, old habitations, un-surveyed villages and other villages in forests, whether

recorded, notified or not into revenue villages; non-recognition of community forest resource rights relating to protection, regeneration or conservation, or management of any community forest resources under Section 3(1)(i) of the Act; etc.

(3) In many areas, the tribal people and other forest dwellers are reportedly facing harassment and threats of eviction from forest lands and forced relocation or displacement from the areas proposed for development projects without settlement of their rights or due compliance with safeguards in violation of the provisions of the Act. The claims are being rejected in some States as the officials are insisting on certain types of evidences and the new technology, such as, satellite imagery, is being used as the only form of evidence for consideration of a claim, instead of using the same to supplement the evidences submitted by the claimants in support of their claims. Inadequate public awareness about the provisions of the Act, particularly the provisions relating to the filing of petitions by the persons aggrieved by the decisions of the authorities prescribed under the Act, inadequate training of the implementing officials etc. are also some of the reasons for non-implementation of the Act in its letter and spirit.

In order to address the above concerns and to ensure effective implementation of the Act, the Ministry has undertaken an exercise to arrive at certain provisions/ steps which will facilitate robust implementation of the Act. Certain guidelines as indicated in the **Annexure** to this letter are accordingly being issued for compliance by all the State Governments/ UT Administrations. It is requested that the enclosed guidelines may be brought to the notice of all the implementing agencies in your State/UT for strict compliance. This Ministry may also kindly be apprised of the action taken for operationalising these guidelines at an early date. This issues with the approval of competent authority.

Yours faithfully

Guidelines on the implementation of the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act 2006

The Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 seeks to recognize and vest the forest rights and occupation in forest land in forest dwelling Scheduled Tribes and other traditional forest dwellers who have been residing in such forests for generations but whose rights could not be recorded. The Act was notified for operation with effect from 31.12.2007 and the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Rules, 2008 for implementing the provisions of the Act were notified on 1.1.2008.

Over a period of last four years of implementation of the Act, some problems impeding the implementation of the Act in its letter and spirit have come to the notice of the Ministry of Tribal Affairs, such as, convening of Gram Sabha meetings at the Panchayat level resulting in exclusion of smaller habitations not formally part of any village; non-recognition of un-hindered rights over the minor forest produce (MFP) to forest dwellers; non-recognition of other community rights; harassment and eviction of forest dwellers without settlement of their forest rights; rejection of claims by insisting on certain types of evidences, inadequate awareness about the provisions of the Act and the Rules etc.

In order to address the above concerns and with a view to ensure effective implementation of the Act, the following guidelines are issued on various aspects of implementation of the Act for compliance by all the State Governments/UT Administrations:

i) Process of Recognition of Rights:

(a) The State Governments should ensure that on receipt of intimation from the Forest Rights Committee, the officials of the Forest and Revenue Departments remain present during the verification of the claims and the evidence on the site.

b) In the event of modification or rejection of a claim by the Gram Sabha or by the Sub-Divisional Level Committee or the District Level Committee, the decision on the claim should be communicated to the claimant to enable the aggrieved person to prefer a petition to the Sub-Divisional Level Committee or the District Level Committee, as the case may be, within the sixty days period prescribed under the Act and no such petition should be disposed of against the aggrieved person, unless he has been given a reasonable opportunity to present his case.

- c) The Sub-Divisional Level Committee or the District Level Committee should, if deemed necessary, remand the claim to the Gram Sabha for reconsideration instead of rejecting or modifying the same, in case the resolution or the recommendation of the Gram Sabha is found to be incomplete or prima-facie requires additional examination.
- d) In cases where the resolution passed by the Gram Sabha, recommending a claim, is upheld by Sub-Divisional Level Committee, but the same is not approved by the District Level Committee, the District Level Committee should record the reasons for not accepting the recommendations of the Gram Sabha and the Sub-Divisional Level Committee, in writing, and a copy of the order should be supplied to the claimant.
- e) On completion of the process of settlement of rights and issue of titles as specified in Annexures II, III & IV of the Rules, the Revenue / Forest Departments shall prepare a final map of the forest land so vested and the concerned authorities shall incorporate the forest rights so vested in the revenue and forest records, as the case may be, within the prescribed cycle of record updation.
- f) All decisions of the Sub-Divisional Level Committee and District Level Committee that involve modification or rejection of a Gram Sabha resolution/ recommendation should be in the form of speaking orders.
- g) The Sub-Divisional Level Committee or the District Level Committee should not reject any claim accompanied by any two forms of evidences, specified in Rule 13, and recommended by the Gram Sabha, without giving reasons in writing and should not insist upon any particular form of evidence for consideration of a claim. Fine receipts, encroacher lists, primary offence reports, forest settlement reports, and similar documentation rooted in prior official exercises, or the lack thereof, would not be the sole basis for rejection of any claim.
- h) Use of any technology, such as, satellite imagery, should be used to supplement evidences tendered by a claimant for consideration of the claim and not to replace other evidences submitted by him in support of his claim as the only form of evidence.
- i) The status of all the claims, namely, the total number of claims filed, the number of claims approved by the District Level Committee for title, the number of titles actually distributed, the number of claims rejected, etc. should be made available at the village and panchayat levels through appropriate forms of communications, including conventional methods, such as, display of notices, beat of drum etc.
- j) A question has been raised whether the four hectare limit specified in Section 4(6) of the Act, which provides for recognition of forest rights in respect of the land mentioned in clause (a) of sub-section (1) of section 3 of the Act, applies to other forest rights mentioned in Section 3(1) of the Act. It is clarified that the four hectare limit specified in Section 4(6) applies to rights under section 3(1)(a) of the Act only and not to any other right under section 3(1), such as conversion of pattas or leases, conversion of forest villages into revenue villages etc.

ii) Minor Forest Produce:

(a) The State Government should ensure that the forest rights relating to MFPs under Section 3(1)(c) of the Act are recognized in respect of all MFPs, as defined under Section 2(i) of the Act, in all forest areas, and state policies are brought in alignment with the provisions of the Act. Section 2(i) of the Act defines the term “minor forest produce” to include "all non-timber produce of plant origin, including bamboo, brush wood, stumps, cane, tussar, cocoons, honey, wax, lac, tendu or kendu leaves, medicinal plants and herbs, roots, tubers, and the like".

(b) The monopoly of the Forest Corporations in the trade of MFP in many States, especially in case of high value MFP, such as, tendu patta, is against the spirit of the Act and should henceforth be done away with.

(c) The forest right holders or their cooperatives/ federations should be allowed full freedom to sell such MFPs to anyone or to undertake individual or collective processing, value addition, marketing, for livelihood within and outside forest area by using locally appropriate means of transport.

(d) The State Governments should exempt movement of all MFPs from the purview of the transit rules of the State Government and, for this purpose, the transit rules be amended suitably. Even a transit permit from Gram Sabha should not be required. Imposition of any fee/charges/royalties on the processing, value addition, marketing of MFP collected individually or collectively by the cooperatives/ federations of the rights holders would also be ultra vires of the Act.

(e) The State Governments need to play the facilitating role in not only transferring unhindered absolute rights over MFP to forest dwelling Scheduled Tribes and other traditional forest dwellers but also in getting them remunerative prices for the MFP, collected and processed by them

iii) Community Rights:

(a) The District Level Committee should ensure that the records of prior recorded nistari or other traditional community rights (such as Khatian part II in Jharkhand, and traditional forest produce rights in Himachal and Uttarakhand) are provided to Gram Sabhas, and if claims are filed for recognition of such age-old usufructory rights, such claims are not rejected except for valid reasons, to be recorded in writing, for denial of such recorded rights;

(b) The District Level Committee should also facilitate the filing of claims by pastoralists before the concerned Gram Sabha (s) since they would be a floating population for the Gram Sabha(s) of the area used traditionally. In view of the differential vulnerability of Particularly Vulnerable Tribal Groups (PTGs) amongst the forest dwellers, District Level Committee should play a pro-active role in ensuring that all PTGs receive habitat rights in consultation with the

concerned PTGs' traditional institutions and their claims for habitat rights are filed before the concerned Gram Sabhas.

(c) The forest villages are very old entities, at times of pre independent era, duly existing in the forest records. The establishment of these villages was in fact encouraged by the forest authorities in the pre independent era for availability of labour within the forest areas. The well defined record of each forest village, including the area, number of inhabitants, etc. exists with the State Forest Departments. There are also unrecorded settlements and old habitations that are not in any Government record. Section 3(1)(h) of the Act recognizes the right of forest dwelling Scheduled Tribes and other traditional forest dwellers relating to settlement and conversion on forest villages, old habitation, un-surveyed villages and other villages and forests, whether recorded, notified or not into revenue villages. The conversion of all forest villages into revenue villages and recognition of the forest rights of the inhabitants thereof should actually have been completed immediately on enactment of the Act. The State Governments may, therefore, convert all such erstwhile forest villages, unrecorded settlements and old habitations into revenue villages with a sense of urgency in a time bound manner. The conversion would include the actual land-use of the village in its entirety, including lands required for current or future community uses, like, schools, health facilities, public spaces etc. Records of the forest villages maintained by the Forest

Department may thereafter be suitably updated on recognition of this right.

iv) Community Forest Resource Rights:

(a) The State Government should ensure that the forest rights under Section 3(1)(i) of the Act relating to protection, regeneration or conservation or management of any community forest resource, which forest dwellers might have traditionally been protecting and conserving for sustainable use, are recognized in all villages and the titles are issued as soon as the prescribed Forms for claiming Rights to Community Forest Resource and the Form of Title for Community Forest Resources are incorporated in the Rules. Any restriction, such as, time limit, on use of community forest resources other than what is traditionally imposed would be against the spirit of the Act.

b) In case no community forest resource rights are recognized in a village, the reasons for the same should be recorded. Reference can be made to existing records of community and joint forest management, van panchayats, etc. for this purpose.

c) The Gram Sabha would initially demarcate the boundaries of the community forest resource as defined in Section 2(a) of the Act for the purposes of filing claims for recognition of forest right under Section 3(1)(i) of the Act.

d) The Committees constituted under Rule 4(e) of the Forest Rights Rules, 2008 would work under the control of Gram Sabha. The State Agencies should facilitate this process.

e) Consequent upon the recognition of forest right in Section 3(i) of the Act to protect, regenerate or conserve or manage any community forest resource, the powers of the Gram Sabha would be in consonance with the duties as defined in Section 5(d), wherein the Gram Sabha is empowered to regulate access to community forest resources and stop any activity which adversely affects the wild animals, forest and the bio-diversity. Any activity that prejudicially affects the wild-life, forest and bio-diversity in forest area would be dealt with under the provisions of the relevant Acts.

v) Protection Against Eviction, Diversion of Forest Lands and Forced Relocation :

(a) Section 4(5) of the Act is very specific and provides that no member of a forest dwelling Scheduled Tribe or other traditional forest dwellers shall be evicted or removed from the forest land under his occupation till the recognition and verification procedure is complete. This clause is of an absolute nature and excludes all possibilities of eviction of forest dwelling Scheduled Tribes or other traditional forest dwellers without settlement of their forest rights as this Section opens with the words "Save as otherwise provided". The rationale behind this protective clause against eviction is to ensure that in no case a forest dweller should be evicted without recognition of his rights as the same entitles him to a due compensation in case of eventuality of displacement in cases, where even after recognition of rights, a forest area is to be declared as inviolate for wildlife conservation or diverted for any other purpose. In any case, Section 4(1) has the effect of recognizing and vesting forest rights in eligible forest dwellers. Therefore, no eviction should take place till the process of recognition and vesting of forest rights under the Act is complete.

(b) The Ministry of Environment & Forests, vide their letter No.119/1998-FC(pt.) dated 30.07.2009, as modified by their subsequent letter of the same number dated 03.08.2009, has issued directions, requiring the State/ UT Governments to enclose certain evidences relating to completion of the process of settlement of rights under the Scheduled Tribes and other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006, while formulating unconditional proposals for diversion of forest land for non forest purposes under the Forest (Conservation) Act, 1980. The State Government should ensure that all diversions of forest land for non-forest purposes under the Forest (Conservation) Act, 1980 take place in compliance with the instructions contained in the Ministry of Environment & Forest's letter dated 30.07.2009, as modified on 03.08.2009.

(c) There may be some cases of major diversions of forest land for non-forest purposes under the Forest (Conservation) Act, 1980 after the enactment of the Scheduled Tribes and

other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 but before the issue of Ministry of Environment & Forests' letter dated 30.07.2009, referred to above. In case, any evictions of forest dwelling Scheduled Tribes and other traditional forest dwellers have taken place without settlement of their rights due to such major diversions of forest land under the Forest (Conservation) Act, 1980, the District Level Committees may be advised to bring such cases of evictions, if any, to the notice of the State Level Monitoring Committee for appropriate action against violation of the provisions contained in Section 4(5) of the Act.

(d) The Act envisages the recognition and vesting of forest rights in forest dwelling Scheduled Tribes and other traditional forest dwellers over all forest lands, including National Parks and Sanctuaries. Under Section 2(b) of the Act, the Ministry of Environment & Forests is responsible for determination and notification of critical wildlife habitats in the National Parks and Sanctuaries for the purpose of creating inviolate areas for wildlife conservation, as per the procedure laid down. In fact, the rights of the forest dwellers residing in the National Parks and Sanctuaries are required to be recognized without waiting of notification of critical wildlife habitats in these areas. Further, Section 4(2) of the Act provides for certain safeguards for protection of the forest rights of the forest rights holders recognized under the Act in the critical wildlife habitats of National Parks and Sanctuaries, when their rights are either to be modified or resettled for the purposes of creating inviolate areas for wildlife conservation. No exercise for modification of the rights of the forest dwellers or their resettlement from the National Parks and Sanctuaries can be undertaken, unless their rights have been recognized and vested under the Act. In view of the provisions of Section 4(5) of the Act, no eviction and resettlement is permissible from the National Parks and Sanctuaries till all the formalities relating to recognition and verification of their claims are completed. The State/ UT Governments may, therefore, ensure that the rights of the forest dwelling Scheduled Tribes and other traditional forest dwellers, residing in National Parks and Sanctuaries are recognized first before any exercise for modification of their rights or their resettlement, if necessary, is undertaken and no member of the forest dwelling Scheduled Tribe or other traditional forest dweller is evicted from such areas without the settlement of their rights and completion of all other actions required under section 4 (2) of the Act.

(e) The State Level Monitoring Committee should monitor compliance of the provisions of Section 3(1)(m) of the Act, which recognizes the right to in situ rehabilitation including alternative land in cases where the forest dwelling Scheduled Tribes and other traditional forest dwellers have been illegally evicted or displaced from forest land without receiving their legal entitlement to rehabilitation, and also of the provisions of Section 4(8) of the Act, which recognizes their right to land when they are displaced from their dwelling and cultivation without land compensation due to State development interventions.

vi) Awareness-Raising, Monitoring and Grievance Redressal :

(a) Each State should prepare suitable communication and training material in local language for effective implementation of the Act.

(b) The State Nodal Agency should ensure that the Sub Divisional Level Committee and the District Level Committee make district-wise plans for trainings of revenue, forest and tribal welfare departments' field staff, officials, Forest Rights Committees and Panchayat representatives. Public meetings for awareness generation in those villages where process of recognition is not complete need to be held.

(c) In order to generate awareness about the various provisions of the Act and the Rules, especially the process of filing petitions, the State Government should organize public hearings on local bazaar days or at other appropriate locations on a quarterly basis till the process of recognition is complete. It will be helpful if some members of Sub Divisional Level Committee are present in the public hearings. The Gram Sabhas also need to be actively involved in the task of awareness raising.

(d) If any forest dwelling Scheduled Tribe in case of a dispute relating to a resolution of a Gram Sabha or Gram Sabha through a resolution against any higher authority or Committee or officer or member of such authority or Committee gives a notice as per Section 8 of the Act regarding contravention of any provision of the Act or any rule made the reunder concerning recognition of forest rights to the State Level Monitoring Committees, the State Level Monitoring Committee should hold an inquiry on the basis of the said notice within sixty days from the receipt of the notice and take action, if any, that is required. The complainant and the Gram Sabha should be informed about the outcome of the inquiry.

APPENDIX – XVIII

THE ORISSA GAZETTE

No. 875 CUTTACK, Monday, July, 5th, 1993 / ASADHA 14, 1915.

FOREST AND ENVIRONMENT DEPARTMENT,

GOVERNMENT OF ORISSA

Resolution No. 16700 - 10 F (PRON) - 20 / 93 - F & E dated 3rd July, 1993

Subject : Protection of Reserved Forest and Protected Forest areas by the community and enjoyment of certain usufruct by the community.

1. Large chunks of forest land in our state have been rendered degraded and unproductive over the years. According to recent estimates the extent of such degraded forest land in the state is about twelve lakh hectares. Degradation sets in on account of over use of the forest and ever increasing pressure of human and animal population on the forests. Forests are basically a local resource. The society has to address itself with urgency to the task of regeneration and rehabilitation of the degraded forests. The problems can be tackled effectively at the local level with the active involvement and participation of the adjoining village communities. Germane to the question of protection and regeneration of the forest is the system of management. Forest management has to be reoriented to forge an effective partnership between the Government Department and the concerned village communities.
2. In Orissa, the tradition of community initiative to protect degraded forests goes back to the early 1950s. In August 1988 the State Government had passed a resolution to formally introduce a scheme of protection of peripheral Reserve Forest areas with participation of the adjoining villages. The scope of this resolution was enlarged in December, 1990 to include the Protected Forest, and it was also laid down that Village Level Forest Protection Committees should be constituted by convening meeting of the concerned villages in return for helping the Forest Department in protection of the earmarked forest areas the villagers would be entitled to get small timber and firewood as may be available from these forest for meeting their bonafide requirement free of royalty. For a variety of reasons however this scheme has not made the desired impact in generating people's participation in protection of forests. After careful consideration Government has decided to implement the following scheme of Joint Forest Management in the State in which the Forest Department and the villagers of the adjacent village(s) will be equal partners in the task of regeneration and restoration of the degraded forests.

Selection of the Area

3. The scheme will operate in degraded forest land (Reserved and Protected Forest) with potential for regeneration. Only such forest area will be selected where the villagers of the adjacent village or cluster of villages are willing or can be motivated to offer active cooperation in regeneration and protection of forest tract, and only such villages shall be involved which are situated adjacent to the forest area. Sanctuaries and National Parks and forest land allotted for the purpose of commercial or industrial plantation or any other Departmental afforestation scheme shall ordinarily be excluded from the ambit of this scheme. A single village committee may be allowed to develop up to about 200 ha of forest land. All the village woodlots, and Social Forestry Block plantation raised under SIDA assisted Social Forestry Project between 1984 - 1994 after being notified as Village Forest will also come under the purview of this scheme. The village in which such plantation has been raised may also be selected for the taking of regeneration and protection of abuttant degraded forest tract along with management of the said plantation.

Vana Samrakshana Samiti

The Gram Panchayat will convene on the suggestion of the DFO / Range Officer / Forester a general meeting of all adults living in the selected village, where the DFO / Range Officer / Forester will explain the scheme of Joint Forest Management as outlined in the following paragraphs. After evaluating the response and motivation of the villagers, and after taking due account of relevant factors, he may recommend constitution of Vana Samrakshana Samiti (VSS) of the village by the Gram Panchayat. There should be one Samiti for a group of helmets or villages if these are all located adjacent to the Forest area to be regenerated.
5. Vana Samrakshana Samiti should include as its members two adults from every household living in the village / cluster of the village, including all those who have been exercising any rights, concession or privileges over the forest area. One member of each house should be a woman.

RESOLUTION

Order No. 22180 / FE Bhubaneshwar dated 30.09.1996

Subject: - Incentives to villagers for protection of forests and conferment of right to usufruct in respect of forests protected by villagers.

In our State it has been the policy of the Government to involve the villagers as partners in the task of protection of forests and rehabilitation of degraded forests in their locality. However, on account of uncertain tenure of the villagers on forests in general and forest produce in particular, satisfactory progress has not been achieved in this direction. In order to obtain active cooperation of the villagers in halting degradation of forests, it is necessary to confer specific rights in favour of the Village Communities in respect of various forest products. After careful consideration, Government has decided that right on the forest produce shall be conferred on the villagers in respect of the forest areas within the limits of the respective villages or situated adjacent to the villages. For this purpose, the concerned villagers have to form Vana Samrakshana Samiti through which they will exercise their right to control and management over the forest in question, which will also be notified as Village Forest for that village. To work out such a process of conferring collective right on the villagers, the management of the peripheral forests has to be village based, and the village has to be treated as the basic unit of management of such forests. All kinds of forests including degraded forests will be protected with the cooperation of the concerned villagers and in lieu of extending such cooperation, the villagers will be entitled to take from the forests various forest products to meet their bonafide requirements. The villagers of any particular village can exercise their collective right over the forest situated within the boundaries of the village or area notified as village forest for the village. The local forest officer will not allow villagers of other distant villages to collect firewood and other forest produce from such forests.

The scope of the collective right to be conferred on the village communities will be as follows:

- a) The village community which has taken active part in the plantation and rehabilitation of village forests and in their protection and maintenance under the Social forestry project, or have been guarding and protecting forests situated within the boundaries of the village or adjacent to the village for a number of years will be conferred the responsibilities for control, management and protection of the forests in question. Which part of the forest in question located outside the boundaries of the village will come under the control of the village community will be decided taking into account the situation and other aspects of the surrounding villages. For this purpose, the boundaries of the forest area will be demarcated on the ground through durable marks and the said forest will be declared as the “village forest” for that village. Such work of demarcation of boundaries of village forests will be carried out in a formal manner by

the Divisional Forest Officer, Sub-Collector and the Tahasildar concerned on the basis of a joint verification.

- b) The local village community will have the primary right of usage and management of the forest notified as village forest. A management scheme will be prepared by the village community for the purpose, and the same will be approved by the DFO concerned. As the village community takes responsibility for protection and management of the forests; it will get authority for regulating the usage of the said forest in accordance with the management scheme.
- c) Each resident family who is a member of the village community will be eligible to gather wood and bamboo etc as may be available from the said forest area, free of any charges. The village community may allow any such collection by its members in its own authority. The village community may grant such permission keeping in view the state of forest and rules and regulations of management adopted for the same.
- d) The members of the village community will have the full right to collection of non timber forest produce from the said forest area, the possession and storage of the same and for processing the products for preparation of their commodities. However, any such produce can be disposed of only to the lessees, agents or authorized officials of the Government at prices fixed for the same.

RESOLUTION

No.IF-Affn.17/2008- 1 7 4 5 4 /F&E

Dated, Bhubaneswar the 22nd October, 2008

Sub: JOINT FOREST MANAGEMENT RESOLUTION, 2008

1. Introduction

Forests are one of the complex eco-systems. The role of forest in conservation of environment and economic prosperity of mankind is well established. Economic growth and environment protection are inextricably linked. For surviving on the earth we ought to live in harmony with Nature. Conservation of environment and protection of forest and wildlife have already been enshrined in our Constitution. Orissa has 58136 Sq. kms of forest area. 31.07 % of its geographical area is under forest cover. Forests play a very significant role in the socio-economic and cultural life of the people of the State. However, over the past few decades, the forests of Orissa are under heavy biotic pressure. The rich bio-diversity of the State is at risk. Man-animal conflict is on the rise. Hence, preservation and development of the rich sylvan heritage of the State is a priority of the State Government. The National Forest Policy, 1988 envisages co-operation of the people in conservation and development of forests. The Government of Orissa have already adopted the policy of Joint Forest Management (JFM) and sought community participation for protection, regeneration and management of the forest wealth. Joint Forest Management is not only a tool for forest regeneration, but also a means of employment generation and social empowerment of the forest-fringe dwellers. The State Government enacted the Orissa Village Forest Rules, 1985 which prescribed for a Management Plan for every village forest and sought co-operation of the community in protection of these forests. In 1988, the State Government had passed a resolution to formally introduce a Scheme of Protection of peripheral Reserve Forest areas with participation of the adjoining villagers by forming a Village Level Forest Protection

2. Committee.

The scope of this resolution was enlarged in 1990 to include the Protected Forests. To make the forest-people interface, more effective and transparent, the Government of Orissa in Forest & Environment Department issued a resolution dated 3.7.1993. This resolution dealt in a fairly exhaustive manner the involvement all local communities in protection of adjoining forests, formation of Van Samrakhyana Samiti (V.S.S.), duties and responsibilities of the V.S.S. and their Executive Committees and the role of Forest Department and Gram Panchayats, preparation of Joint Forest Management plan, usufructory benefits for the V.S.S. and provisions of MOU and *related issues*. Subsequently another Government resolution dated 30.09.1996 tried to confer specific rights in favour of the Village Committees in respect of various *products*. However, these Resolutions in the past did not cover the National parks and Sanctuaries. The Mangrove Wetlands and the Protected Areas (PA) of the State though need the participatory mode of management, require a different approach. In past all attempts to protect the PA from human interventions by coercion has resulted in hostile attitude of the people towards wildlife and forest staff. It has been realized that people living near the PA,

while deriving little benefit from conservation, have paid enormous costs in terms of lost access to their life support systems. Further, there is restriction on harvesting of forest produce in the National Parks and Sanctuaries as per the orders of Hon'ble Supreme Court. It has therefore become essential to have a site specific, culturally sensitive and participatory approach, which would ultimately provide economic incentives to increase the net local benefit from conservation and sustainable resource use. Ecodevelopment is a strategy for securing support of the local communities and other stakeholders for the protected area management. The activities to be taken up under eco-development should have a strong Conservation-Development (C-D) linkage and may include Ecotourism and Off-farm activities as well as providing specific alternatives to local biomass dependencies on the PA. The biodiversity rich Mangroves on the long coastal tract of Orissa are of immense value which provides ecological, livelihood and food security. Sustainable management of these vital and Life sustaining resources involving all the stakeholders by introduction of site specific participatory management practices is essential. Mangrove forests are fragile inter tidal ecosystem with characteristic salt tolerant vegetation. Sharing of forest produce with the participant user communities is an important ingredient of JFM. But the slow growing mangroves offer a very limited scope of providing wood and NTFP that may serve as an incentive for ensuring participation of people. Hence Eco-development approach is essential which will focus on development of alternate resources and alternate livelihood security options. Joint Forest Management is an evolving concept encompassing socio-cultural and Economic dimensions. With the changing scenario of Forest Management, increasing awareness among people and experiences gained from the past management practices, it is now felt necessary that the State Government resolution on Joint Forest Management needs revision to make it more effective.

2. Selection of Area:

i. The forests of the State shall be grouped into the following two categories:

a) Forest Area (Reserve Forest, Protected forests, Village forest and Revenue forests)

b) Protected Area (National Park and Sanctuaries) excluding Core Area, and Mangrove Wetland

For the second category, the villages located within the National Park/ Sanctuaries as well as adjacent to the same will be involved in protection and management of the wildlife and habitat.

FOREST & ENVIRONMENT DEPARTMENT

RESOLUTION

The 9th September, 2011

Sub: Joint Forest Management Resolution, 2011

1. Introduction:

Forests are one of the complex eco-systems of our planet. The role of forests in Conservation of environment and economic prosperity of mankind is well established. Economic growth and environment protection are inextricably linked. For surviving on the earth human beings will have to live in harmony with nature. The need for conservation of environment and protection of forests and wildlife has been enshrined in our Constitution. Orissa has 61018 Sq. kms of forest area which is 39.18% of the geographical area of the State. The existing forest cover of 31.38 % of its geographical area plays a very significant role in the socio-economic and cultural life of the people of the State. However, over the past few decades, the forests of Orissa are under heavy biotic pressure. The rich biodiversity of the State faces the risk of depletion. Man-animal conflict is on the rise. Hence, conservation and development of the forest eco-systems of Orissa is a priority of the State Government. The National Forest Policy, 1988 envisaged co-operation of the people in conservation and development of forests. In keeping with this policy Government of Orissa adopted the Joint Forest Management (JFM) approach and sought community participation for protection, regeneration and management of the forest wealth. JFM has not only been a tool for forest regeneration, but also a means of employment generation and social empowerment of the forest-fringe dwellers. The State Government enacted the Orissa Village Forest Rules, 1985 which envisaged preparation of a Management Plan for every village forest and sought co-operation of the community in protection of these forests. In 1988, the State Government passed a resolution to formally introduce a Scheme of Protection of peripheral Reserve Forest areas with participation of the adjoining villagers by forming a Village Level Forest Protection Committee. The scope of this resolution was enlarged in 1990 to include the Protected Forests. To make the forest-people interface more effective, the Government of Orissa in Forest & Environment Department issued a Resolution dated 3.7.1993. This resolution dealt, in a fairly exhaustive manner, the involvement of all local communities in protection of adjoining forests, formation of Van Samrakshyana Samiti (V.S.S.), duties and responsibilities of the V.S.S. and their Executive Committees and the role of Forest Department and Gram Panchayats, preparation of Joint Forest Management plans, usufruct benefits for the V.S.S. and provisions of MoU etc. Since these Resolutions in the

past did not cover the Mangrove Wetlands and the Protected Areas (PA) of the State, i.e. National parks and Sanctuaries, and participatory modes of management are needed there too, the 2008 Resolution was issued to extend the participatory approach to all types of forests. Eco-development was adopted as a strategy in order to improve the livelihood of local people and thereby secure their support for conservation. Participatory Forest Management in JFM mode is an evolving concept encompassing ecological socio-cultural and economic dimensions. People have played an important role in protection and regeneration of forests all over the state of Orissa. Villagers have either formed V.S.Ss as per JFM Resolution or Community Forest Management Groups outside the existing JFM framework. It is desirable that associations of people, whether formed under Government resolutions, or by people's own initiative, with the forest conservation as the principal and core objective, are allowed to function smoothly. Panchayat Extension to Scheduled Area (PESA) Act, 1996, which is applicable to scheduled areas, lays down as follows: "Every Gram Sabha shall be competent to safeguard and preserve the traditions and customs of the people, their cultural identity, community resources and the customary mode of dispute resolution; Every Gram Sabha shall approve the plans, programmes and projects for social and economic development before such plans, programmes and projects are taken up for implementation by the Panchayat at the village level and be responsible for the identification or selection of persons as beneficiaries under the poverty alleviation and other programmes." This Act vests the ownership of Minor Forest Produce (MFP) on Gram Panchayats in Scheduled areas. The decision of Government of Orissa to do away with the monopolies in collection and trading in 69 items of MFP is in consonance with the spirit of PESA Act.

The community forest resource has been defined under the Scheduled Tribes and Other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 (popularly known as Forest Rights Act). As per the said Act, community forest resource means customary common forest land within the traditional and customary boundary of the village and seasonal use of the landscape in case of pastoral communities etc. The Minor forest produce has been defined under the Forest Rights Act which includes all non-timber forest produce of plant origin such as bamboo, brushwood, stumps, cane, tassar, cocoons, honey, wax, lac, tendu or kendu leaf, medicinal plants and herbs, roots, tubers and the like. It may be mentioned here that in case of Kendu Leaf, the current policy of Government is to discharge certain responsibilities with a view to protecting the livelihood of forest dependent communities while providing management inputs to facilitate a scale of operation required for adequate value realization and sustainable management process. Under the Forest Rights Act, the Gram Sabha is to initiate the process of determining the individual and community forest right. Therefore the enactment of FRA provides an opportunity not only to strengthen the existing Participatory Forest conservation and management initiatives but to promote such initiatives in the areas which are devoid of such institutional arrangements. With the changing scenario of Forest Management, increasing awareness among people and experiences gained from the past management practices; it is now felt necessary that the resolution on Joint Forest Management, 2008 is revised.

1. Selection of Area:

(i) The forests of the State to be covered under this Resolution shall be grouped into the following two categories:

The Committee constituted for the first category of forests will be known as Vana Surakshya Samiti (VSS) while the Committee constituted for the second category will be known as Eco-development Committee (EDC).

(ii) While deciding the extent of area to be assigned, the Palli Sabha shall consult the Forest Range Officer concerned and take into account the area customarily being protected and used by the community, the number of adjacent villages, their claims, if any, and users' regime. In case a group of villages decide to constitute one VSS jointly, they may do so. The local Forester will provide the technical input and facilitate the process of identification of the forest area to be managed by the committee.

(iii) In case any change is required in the extent of forest area assigned to the existing VSS formed under the JFM Resolution, 2008, the same can be done in consultation with the village community and the local forest department officials not below the rank of a Forest Range Officer.

APPENDIX –XXXII

OFFICE OF THE PRINCIPAL CHIEF CONSERVATOR OF FORESTS, ORISSA

Memo No: **19664** (5) / 1F- Crop. 634/2001.

Dated, Bhubaneswar, the 13 th Sept'2001.

To,

All the Conservator of Forests, Territorial Circles /Field Director, S.T.R., Baripada

Sub: - Execution of Salvage Operation and delivery of Salvaged materials.

The Forest Department has been created for forest conservancy, improving and extending the forest wealth of the State. To achieve this objective, presently felling of trees in forests has been banned by the State Government since 1992.

Further, to save the forest from fire and to utilize purposefully, the fallen trees on the ground and the materials left in the forest by the smugglers after taking away the choicest portion of the trees, these trees and materials are salvaged to road side and delivered to the Orissa Forest Development Corporation Ltd. after due passing and finalizing royalty of the same.

The Government orders vide F & E Department Memo No.104/F & E Dated.02.01.2001, No.9978/ F & E dated.21.06.2001 and instructions issued from this office vide Memo No.1769 (5) dated 22.01.2001 are so minor clear and strict for executing salvage operations that even dried standing trees are not consideration it is found that even green standing trees are being cut in large number and salvaged.

To make salvaging operations uniform, rational and transparent following additional instructions should be observed in execution of salvage operation:-

i) Each Forest Guard should be issued two registers with a Certificate given on the first page of each register by the Range Officer about the number of pages each register contains. One of these registers will be used for recording the details of dry fallen trees for which a proforma is enclosed with this letter as **Annexure- I**. The other register will be used for recovering the left out materials in course of illicit felling by smugglers. The proforma for this register is enclosed as **Annexure-II**. The Forest Guard as usual while patrolling his beat will hammer mark on fallen tree at base and B.H. by making two 9" x 9" blazes at those places. Similarly, in case of left out materials the stump of tree concerned will be branded with seized hammer mark at its top and left materials will be branded with seized hammer mark at both cut ends of the logs or at every 10".0" length of the stem portion, if it is not logged, by making blazes. At each place 3 un-pression of seized hammer will be given.

All the fallen trees will be given Sl.No. which will continue in a particular beat for the whole financial year.

The Forest Guard will take measurement of the left out portions of illicitly felled trees i.e. length and mid girth and record the same in the register concerned. Here, also the Forest Guard will continue the Sl. No. for such left out materials for the whole financial year.

The Forester of a Section will check these registers of each Forest Guard of his section every fortnight and take out an abstract of information of each register separately and submit a consolidated report beat-wise to the Range Officer about such trees and left out materials. Before submission of this report to Range Officer, he will personally verify 50% of the information of each register for each beat about correctness of this information and physical availability of trees / materials. The Forester will not keep this matter pending at his level for more than a week.

The Range Officer will consolidate both those information section-wise separately and submit the same to the Divisional Forest Officer for every calendar month by 7th of succeeding month. Before submitting those information to the Divisional Forest Officer, the Range Officer will verify at-least 25% of the materials in each beat / section about the correctness of measurement and physical availability of these materials.

After receipt of such report from the Range Officer, the Divisional Forest Officer will submit a divisional consolidated report to his Conservator of Forests every month by 15th of succeeding month. The Divisional Forest Officer will wait for 15 days before taking up salvage operations of those materials. In the information submitted by the Divisional Forest Officer by sending the Mobile Asst. Conservator of Forests or by himself or any party. Before submitting the information to the Conservator of Forests, the Divisional Forest Officer should check at-least 5 – 10 % of the materials so reported in each Range about the correctness of measurement and physical availability personally and 10% checking must be done by his A.C.F. in each Range.

In no case, the Divisional Forest Officer should take up Salvage operations without receipt of such information from Range Officers and without waiting for 15 days after submission of this information to his Conservator of Forests.

Basing on such information, the Conservator of Forests will control the allotment of funds for salvage operations to a particular division. The Conservator of Forests should make it a point to physically check such information about fallen trees and left out materials. He should regularly monitor the progress of materials both timber and firewood salvaged in a division, its delivery to OFDC and royalty finalization.

Delivery of Salvaged materials.

For every calendar month by 7th of succeeding month, the Divisional Forest Officer will submit a list of materials both timber and firewood salvaged during the month in each Range. Site-wise / Lot-wise to his Conservator of Forests with a copy to concerned Divisional Manager, OFDC Ltd, he will submit a proposal to the Conservator of Forests for its approval. In case, the materials salvaged in a particular month are quite less the list of these materials may be submitted to Divisional Manager, OFDC Ltd. once in 2 to 3 months and royalty discussion will be held on these occasions. Materials will be delivered to OFDC Ltd. only after royalty is finalized. In divisions where the practice of getting approval of rates of royalty first and then submission of proposal for royalty approval on various occasion is being followed may continue.

A quarterly Progress Report on Salvage Operations will be submitted to this office with a copy to Conservator of Forests in the proforma enclosed as **Annexure-III**. Instances have come

to our notice where salvaged materials are not delivered fully to the OFDC Ltd. and this may be due to over charging the quantity of materials salvaged in the vouchers or false vouchers. For any omission about felling standing, dry or green trees for salvaging, the Divisional Forest Officer along-with the concerned Range Officer will be held fully responsible.

Along with branding and enumeration of left out materials and stump of illicitly felled trees with seized hammer by the Forest Guard he will book offence cases for the same i.e., tree felled and Forester and Forest Ranger should make concerted efforts to find out the offenders and recover the stolen materials.

Necessary enquiry should be conducted as per the provisions of the Orissa Forest (Detection, Enquiry and disposal of Forest Offence) Rules, 1980. We should not remain content with salvaging the left overs only as it is now.

Before salvaging a fallen tree the marking hammer issued to Range Officer will be impressed on the blazed portion alongside of the seized hammer mark. This marking hammer will be impressed on the top of the stump after this tree is salvaged, to prove that it is a salvaged tree stump.

Conversion Register should be maintained by the Range Officer for all salvaging operations. Logs of fallen trees as well as left out materials will be given log serialbasing on the tree number given in the register of Forest Guard with coaltar / digit using an initial word of the beat name and suffix. Before salvaging a fallen tree of left out materials it should be worked out as to whether the salvaging is economical or not. There may be cases where expenditure involved on salvaging will be more than the royalty to be obtained. In such cases, the salvaging may not be attempted.

Reconciliation of salvaged materials with materials delivered to O.F.D.C.Ltd.

The conservator of Forests should review for each quarter ending 31st March, 30th June, 30th September and 31st December after taining a report from the Divisional Forest Officer the position about the materials salvaged during the quarter and materials delivered to O.F.D.C.Ltd.. So also he should get a report from Divisional Manager about materials taken delivery. He should take up this work immediately for the financial year 2000-2001 and 1999-2000, as it is feared that in a number of divisions the materials salvaged during these years may not have been delivered to O.F.D.C.Ltd. fully and in 1999 there was large scale salvaging in some divisions due to super cyclone.

For this purpose, even verification of 60-Ps of the divisions is also needed to find out the amount spent and materials obtained. Similarly, the royalty assessed and received from O.F.D.C.Ltd. for the delivered materials needs to be reviewed and reconciled. Each Conservator of Forests is instructed to make this exercise and report materials obtained in salvage operations, materials delivered to O.F.D.C.Ltd., out of these, royalty approved, royalty obtained and cost incurred on these salvage operations in each divisions of his circle. From this information, cost benefit ratio may be worked out for each divisions in each year.

You may be aware of the case of felling green standing trees in the garb o salvage operations in Jeypore division in which some senior officers were suspended. Let us at-least now learn lessons from our mistakes and adopt all corrective measures.

Principal Chief Conservator of Forests,
Orissa.

Maintenance of Boundary & Pillar

OFFICE OF THE PRINCIPAL CHIEF CONSERVATOR OF FORESTS, ORISSA, BHUBANESWAR

Memo No.15931/10F (Cons.) 8/07

Dated, the Bhubaneswar 3rd Aug. 2007-11-06

To,

All Conservator of Forests

Sub: - Survey & demarcation with construction of pillars.

Ref: - This office letter No. 7487(70/7F(Misc.) 301/02 dt.9.4.2004

Instruction has been given for construction of boundary pillars on the

(1) **Reserve Forest Boundary** vide this office letter under reference. It has been clarified in the said letter that the pillars shall be constructed in size of 100 cm. diameter and 130 cm. height having a pole of firth 60-75 cm (using locally available stones and boulders). The pole of 100 cm. length to be fixed in the centre shall be 70 cm inside pillar and 30 cm above. The visible portion of pole shall be dressed and it will face towards outside, with the pillar number written on it. The outer surface of the pillar shall be cemented.

However in execution of the work henceforward, certain modifications are allowed as per details given below to ensure stability.

(a) Stone Pillars (Figure I a) :

1. The ground shall be leveled before construction of pillar.
2. The diameter at the base of the pillar shall be kept 120 cm and that at the top 80 cm so that the diameter at the centre will be 100 cm. Height of pillar shall be 130 cm. Locally available stones and boulders shall be fixed using mud mortar.
3. The pole of 160 cm length (duly painted with coal tar) to be fixed in the centre shall be 130 cm inside pillar and 30 cm above, i.e. one end of pole shall be embedded in ground.
4. The visible portion of pole shall be flattened with face towards outside and the pillar number written on it. The pillar number shall also be written at the base of the pillar.
5. The voids on the outer surface of the pillar should invariably be cemented.

(b) Masonry Pillars (Figure I b)

Masonry pillars may also be constructed on the RF boundary line where adequate curing is possible. The foundation of such pillar shall be 60cmX60cmX60cm. The size of the pillar above foundation (ground) shall be 60cmX60cmX60cm (ht) on back side and 60cmX60cmX60cm (ht) on front side with face slanting outside. This will have a volume of 18 cft.

(II) Boundary pillars on the PRF & DPF boundary

(a) Stone cairns (Figure II a)

1. The ground shall be leveled before construction of the pillar.
2. The diameter at the base of the pillar shall be 90 cm while that at top 60 cm. Thus diameter at centre will be 75 cm. Height of pillar shall be 100 cm. Locally available stones and boulders shall be used and made stable before filling up voids with mud mortar
3. The pole of 130 cm. length (duly painted with coal tar) to be fixed in the centre shall be 100 cm inside pillar and 30 cm above, i.e. one end of pole shall be embedded in ground.
4. The visible portion of pole shall be flattened with face towards outside and pillar number written on it. The pillar number shall also be written at the base of pillar.

(b) Masonry Pillars (Figure IIb)

Masonry pillars may also be constructed on the PRF/DPF boundary at places where adequate curing is possible. The foundation of such pillar shall be 60cmX60cmX60cm. The size of the pillar above foundation (ground) shall be 60cmX60cm (ht) on back side and 60 cm X 30 cm (ht) on front side with the slanting surface facing outside. The pillar shall be plastered and duly numbered with name of PRF/DPF written on the slanting portion. This will have a volume of 14 Cft.

(III) Other Pillars:

Pillars posting along other demarcation lines is also required in the field, such as demarcation of VSS areas, ANR areas, plantation areas and other treatment areas. This demarcation pillar shall be of different size and shape. To bring uniformity in the construction of pillars, following type of pillars along demarcation shall be ensured for different type of areas.

(a) VSS area (Figure III a)

VSS area shall be demarcated using concrete / cut stone pillar of 15 cm X 15 cm cross-section and of 60 cm length of which 40 cm shall be below the found and 20 cm above the ground. The name of VSS on the side & pillar number on the top shall be written.

(b) Demarcation of ANR/Plantation / other treatment area :

The pillars for this purpose shall be similar to that of VSS area but instead of VSS, words like ANR (Assisted Natural Regeneration), BP (Block Plantation) can be written.

The above is being attempted to ensure uniformity in the shape , size and look of various pillars, cairns etc. used in boundary delineation of various forest areas and are crucial from management point of view. Thus due importance to the above instructions is required to be attached in all Divisions, for which the respective officers are directly responsible.

Principal Chief Conservator of Forests,
Orissa, Bhubaneswar.

APPENDIX-XXXVI

GOVERNMENT OF ORISSA

FOREST & ENVIRONMENT DEPARTMENT

No.10F (TR)-23/02.15398/F&E dated, Bhubaneswar, the 31st August-2005

To,

The Principal Chief Conservator of Forests, Orissa

The Principal Chief Conservator of Forests (WL) &

Chief Wildlife Warden, Orissa

The Additional Principal Chief Conservator of Forests (KL), Orissa.

Sub: - Disposal of seized forest produce in forest offence cases-instructions regarding.

Sir,

I am directed to say that the subject of procedure adopted for disposal of seized forest produce in forest offence cases was reviewed. Disposal of seized produce with prompt confiscation proceedings is not being undertaken by way of public auctions where Orissa Forest Development Corporation has not lifted within prescribed time limit. Deterioration due to delay affects both proper utilization of the material as well as venue. The authority of Divisional Forest Officer to fix upset price up to Rs.10,000/- in a case for local public auction in 1992 has been limiting factor. In many cases where permission of the SDJM court has been sought for the disposal of seized forest produce being perishable in nature subject to speedy and natural decay involved in prosecution cases, they have declined to do so as specific stature conferred special power on specified authority who can exercise such authority. Therefore in super session of all previous instructions on the subject, following instructions be implemented by all concerned.

1. Disposal of timber etc. seized in UD cases

The seized timber and other produce after die investigation remaining as UD case is to be ordered to be confiscated to government and disposed off by way of public action or delivery to Orissa Forest Development Corporation Ltd. within 2 (two) months from the date of seizure. The

receipt is to be deposited as Revenue. In case of seized Kendu leaf, Salia / Daba bamboo and Sal seed being nationalized forest produce in both UD/OR cases, they are to be confiscated to government and delivered to trading agent (OFDC / TDCC) of the Government for sale and deposit of proceeds with Divisional Forest Officer after deducting their commission. There is not option for Divisional Forest Officer and OFDC Ltd. in this regard for any quantity.

2. Disposal of timber etc. in OR cases

The seized produce in OR cases are necessarily to be submitted before Authorised Officer of the Division for confiscation proceeding which are to be disposed off expeditiously. In case of timber and other forest produce if final orders of Authorised Officer 804 is not taking place within 2 (two) months of seizure, the interim orders of the Authorised Officer is to be obtained for disposal of such item by public auction and to deposit the same in treasury. The stature has conferred confiscation power on Authorised Officer who shall exercise such authority. With disposal and deposit of sale value in treasury as interim measure or on conclusion, prosecution authority may be intimated accordingly.

3. Procedure for disposal through OFDC Ltd.

The confiscated forest produce items are to be offered to OFDC Ltd. For delivery and lifting whining 30 days of offer. The payment of royalty is to be made in advance for delivery. The rate of royalty for seized forest produce of various specifications shall be decided jointly and necessarily in agreement with local market trend by the Divisional Forest Officer with the Divisional Manager, OFDC Ltd. for Financial Year in April. Offer to OFDC subsequently in FY would be subject to this agreement only. In case of their disagreement, there would not be any appeal / joint agreement before the on servitor of Forests of Circle and the General Manager, OFDC Ltd. of the Zone and the Divisional Forest Officer has to dispose off the confiscated produce in public auction in the FY.

Offer to OFDC is not a compulsory step but an option for the Divisional Forest Officer towards expeditious disposal of confiscated produce.

4. Procedure for disposal through public auction or tenders

The confiscated items are to be put to public auction / tenders by the Divisional Forest Officers quarterly. In nutshell, any seized forest produce is to be sale within 3 (three) months of seizure on following the prescribed stature provisions and above instructions. For example, all seized produce in June 2005 after confiscation is to be put on sale list within September, 2005. When a forest produce of similar specification stored at one location would be of mini truck load (3 cum. in volume or 3 MT in weight) by combining two or more UD / OR cases, the same could be sold in a general auction at divisional headquarters. Otherwise sale of confiscated produce below specified quantity in each case should be at the Range headquarters in local auction. The upset price of produce to be sold other procedure of auction / tender shall be as prescribed in the Orissa Forest Code.

However, no sale would be conducted for seized and confiscated produce stored in forest or with the third party. Ordinarily, produce before being placed in the sale list should be brought to sage location / depot of the Range. Sale notice shall indicate place of storage, period of lifting to be 30 days from the date of ratification. A quarterly schedule of general auction / local auction with terms and conditions be notified by Divisional Forest Officer for a FY with information that sale list, if any would be available on Notice Board of Division Office and Range Officer 10 days in advance of date of auction / tender.

5. Prompt disposal of seized produce in conformity with above instruction would be the specific duties and responsibility of the Divisional Forest Officer and they shall ensure that instructions are implemented scrupulously. The disposal of seized stock as available on 2005 and reported would be the physical target for performance in 2005-06 for Divisional Forest Officer / Conservator of Forests / Chief Conservator of Forests for self appraisal on ACRs as well as similarly for subsequent years.

6. The Orissa Rewards for Detection of Forest Offence Rules, 2004 is under Implementation. The Divisional Forest Officers are required to facilitate reward to entitled persons promptly with disposal of seized forest produce in such cases.

7. Review of disposal of seized produce in Offence Cases

The Conservator of Forests of Territorial Circle shall ensure fixation of auction / tender schedule and upset price fixation on the proposal of Divisional Forest Officers promptly. He shall review the implementation of the Orissa Rewards for Detection of Forest Offence Rules, 2004 in each division simultaneously with the improvements in level of detection of forest offence and seizure in 2005 with restoration of forest officer authority to Forest Guards. He shall also bimonthly review the progress at the Division on seizure, confiscation of seized produce and bringing them to sale list for auction / tender in every division under his control, fix target for Divisional Forest Officer and report the position to the Chief Conservator of Forests (Forest Utilisation) who in turn would obtain direction of the Principal Chief Conservator of Forests for communication to Conservator of Forests for each division.

The Chief Conservator of Forests (Forest Utilisation) shall monitor and review the seizure, confiscation, disposal, stock available for disposal and revenue deposits with targets prescribed for every Division on quarterly basis and report to the Government for information in October, January, April and July.

These instructions are being simultaneously endorsed to the Conservator of Forests (T) and Divisional Forest Officers (Forest & WL) for progressive and strict compliance.

Yours faithfully,

Sd/-Principal Secretary to Government.
