*No.5F-C-62/2000. 13285/F&E., Dated Bhubaneswar the 23.08.2000.*

In partial modification of this Department Resolution No.5503/F&E., Dated 31.03.2000 in the matter of policy on procurement and trade of Non-Timber Forest Produce, the State Government have been pleased to transfer the following seven oil seed items mentioned in Annexure-B appended to the said Resolution for inclusion of the same as Minor Forest Produce items under Annexure – A to be regulated by the Gram Panchayats henceforth.

1) Mahua Seed
2) Kusum Seed
3) Karanja Seed
4) Neem Seed
5) Char Seed
6) Chakunda Seed
7) Babul Seed

The guidelines laid down in the aforesaid Resolution for disposal of the above seven oil seed items shall be treated as ineffective.

By Order of the Governor
HS Chahar,
Commissioner-cum-Secretary to Government.

## Appendix No: XXII

**(A) Government of Orissa.**
**Forest and Environment Department**
**RESOLUTION.**
**No.5503/F&E**
*Dated 31st March 2000. Bhubaneswar*

**Non-Timber Forest Produce (NTFP) has traditionally been perceived as an important source of forest revenue. Accordingly the policies relating to NTFP over the years have generally tended to aim of maximisation of revenue. However, NTFP is an important source of livelihood of tribals and the rural poor. These gatherers of NTFP, majority of whom are women, have limited access to the market, and their primary concern is getting a fair price for the NTFP gathered by them and being able to dispose off the produce gathered. The prevailing system does not adequately provide these facilities to the primary gatherers. At the same time, it is also equally important that collection of NTFP must be on non-destructive basis so that sustainability of forests and long term sustainability of the NTFP based livelihood can be reasonably ensured**.

2. The State Government have had under their consideration proposals for formulation of an appropriate policy on Non-Timber Forest Produce, keeping in view the consideration outlined in the preceding paragraph. While formulating the policy the provisions of the Panchayats (Extension to scheduled areas) Act, 1996 have also to be kept in view. The term 'minor forest produce 'has not been defined. Under the policy of Joint Forest Management, the local communities are being closely involved as partners of Forest Department in the management of degraded forests; and the members of the Vana Samrakshyana Samiti are entitled to share of the usufructs, including the entire NTFP gathered from such a forest area. Considering all aspects of the matter, Government have been pleased to approve of the following policy guidelines for streamlining the system of collection and disposal of various Non-Timber Forest Produce items :-

Minor Forest Produce.

3 (a). The items of Non-Timber Forest Produce listed in Annexure A will be treated as Minor Forest Produce (MFP) and the term MFP will only mean and include items listed in Annexure-'A'. The list of items of NTFP to be treated as MFP may however be modified by Government from time to time, Gram Panchayat/Gram Sabha in the scheduled areas will have the ownership over MFP produced within its territorial jurisdiction, i.e. in respect of the MFP produced in and collected from the Government lands and forest lands within the limits of the revenue villages comprising the Gram Panchayat. Under law, ownership of MFP in non-scheduled areas is not vested in Gram Panchayats. Gram Panchayats both

in the scheduled and non-scheduled areas will however, have the authority to regulate purchase, procurement (as distinct from collection by primary gatherers) and trading in MFP in accordance with the policy outlined in the succeeding paragraphs.

3 (b). No Gram Panchayat, whether situated within or outside the scheduled area will have ownership over MFP produced in Reserve Forests, in forest areas under Wildlife Sanctuaries and National Parks which are outside the limits of revenue villages. The Gram Panchayats will not therefore have the right to grant lease or licence to any individual or agency for collection of Minor Forest Produce from any Reserve Forest or Sanctuary or National Park. However, members of Vana Samrakshyana Samitis, and tribals, artisans, etc. as part of their customary rights will be free to collect Minor Forest Produce from forest areas excluding sanctuaries and National Parks. When any such MFP collected from forest areas is brought to a village, i.e. into the territory within a Gram Panchayat, it will come under the Gram Panchayat's power to regulate procurement and trading. Where Vana Samrakshyana Samiti has been formed, the Samiti and its members will have priority over the Gram Panchayat in the matter of collection and disposal of Minor Forest Produce of the respective forest area.

3(c). Any person desirous of purchasing MFP from primary gatherers or trading in MFP so purchased shall apply for registration to the concerned Gram Panchayats and the Gram Panchayat may register such dealers or traders for a season from the first day of October to the last day of September of the following year. Dealers and Traders will have to seek fresh registration for the next season. Gram Panchayats shall make all efforts to promote free competition in procurement of MFP by engaging as many dealers for each item of Minor Forest Produce as reasonably practicable. The Gram Panchayat shall also levy an annual registration fee from such dealers or traders at such rate as may be determined by the Gram Panchayats will have to furnish a monthly return to the concerned Range Officer indicating the item of MFP procured quantity procured and the GP from which procurement was made during the month. No person will be allowed to operate as a Dealer/Trader in MFP in any area without being registered as such by the concerned GP.

3 (d). The collection of MFP by the primary gatherers will be subject to reasonable control to be exercised by the DFO in accordance with the provisions of law and sound silvicultural principles laid down in the Forest Working Plan which shall be given publicity in advance in the adjoining GPs.

3 (e). The Government agencies like Orissa Forest Development Corporation; Tribal Development Co-operative Corporations etc. may also register themselves with one or more Gram Panchayats for procurement and trading in one or more items of Minor Forest Produce.

3 (f). A Gram Panchayat may cancel the registration of any dealer/trader or may refuse to grant registration for the subsequent seasons if after summary enquiry in course of which the affected party shall be given an opportunity to show cause it is satisfied that the dealer/trader has procured any MFP from the primary gatherers at a rate lower than the minimum procurement price fixed for that item of MFP under para-5 of this resolution for the relevant year.

3 (g). No lease shall be granted by Government in respect of any Minor Forest Produce nor shall it levy any royalty on these items after commencement of this Resolution. No Forest Department Transit permit will be required thereafter for transport/movement of any Minor Forest Produce within the State).

Other items of NTFP:

4 (a). The Trade in kendu leaf will continue to be directly controlled by the State Government as there are well laid down statutory provisions for control of trade in this item. Sal Seed which is the one NTFP items notified as a specified forest produce under the Orissa Forest Produce (Control of Trade) Act 1981 will also be dealt with in accordance with the provisions of law by Government keeping the overall interest of the trade, the industries and the gatherers in view.

4 (b). Certain items, namely Sal leaves, gums and resins of different trees and climbers and roots of various species which have medicinal or other uses will not be leased out, as the collection of these items on commercial scale has adverse impact on the sustainability of the particular species and the forest. In particular localities, however, based on sound assessment of silvicultural availability and enforcement of appropriate collection procedure, any of these lease-barred items may be allowed to be collected either directly by field organisation of Forest Department or a Government undertaking.

4 (c). The remaining items of NTFP as per the list of Annexure-B, which may be modified by Government from time to time, will be allowed to be procured and traded by the dealers who have been registered for the purpose under this Resolution by the concerned Divisional Forest Officer. Individuals, societies, Co-operatives, Government Undertakings and Corporations may be registered as a dealer for the above purpose. Such registration shall ordinarily be granted by the Divisional Forest Officers for a season (from the first day of October to the last day of September of the following Calendar year) to applicants seeking such registration, unless there are valid reasons for refusing registration. The DFO will endeavour to promote competition among the traders and dealers by registering as many dealers as reasonably practicable for a specified area. For each items, as many dealers as may come forward can be engaged for each Forest Division/Range. OFDC, TDCC, Co-operative Societies like LAMPS etc. will also be eligible to register themselves with the DFOs and should be encouraged to engage themselves in trading in these items.

The Vana Samrakshyana Samiti, Mahila Samiti, recognised groups of primary gatherers may also get themselves registered for this purpose. The fees to be paid for registration shall be prescribed by Government.

4 (d). The registered dealers will be required to furnish the names of their authorised agents/nominees and the names of their collection and storage centres to the concerned Divisional Forest Officers, and will also record the daily transactions in prescribed formats. The dealers will have to enter into on agreement with the concerned DFOs under which the dealers will be responsible for achieving a minimum target of procurement to be fixed by the Divisional Officer, of a particular item during a collection season. If the collection method of any particular item in any particular area is considered to be harmful or injurious to the forest, the DFO may impose temporary ban on such collection.

4 (e). The registered dealers will have to pay royalty to the local forest Range Officer at the rate fixed for the quantity of produce collected. The rate of royalty shall ordinarily not be less than 10 percent of the minimum procurement price for the particular item, but this rate may be varied by Government from time to time*, suo muto* or on proposals submitted by the Divisional Forest Officers.

4 (f). The registered dealers will be required to take transit permits from competent Forest Officers for movement/transport of the produce out of the collection centres after setting the royalty dues, etc.

4(g) The Divisional Forest Officer may cancel the registration or refuse registration of any dealer/trader if after summary enquiry in course of which the affected party shall be given an opportunity to show cause it is found that the dealer has procured any forest produce from the primary gatherers at a price less than the minimum procurement price fixed for the relevant year under para-5 of this Resolution or has failed to achieve the minimum target of procurement, or has failed to file the prescribed returns or has failed to settle the royalty dues in time.

5. For all NTFP items including MFP, the Committee appointed by Government in SC & ST Development Department will fix the minimum procurement price each collection season or part thereof. These procurement prices shall be announced every year ordinarily during the month of September and will be given wide publicity as decided by Government.

By Order of the Governor
HS Chahar
Commissioner-cum-Secretary to Government.
